“

Even though I've been working with parents for over 10 years, there was content I hadn't come across before. I now feel more informed and was interested in all the content, even those areas I was very familiar with. It was good to get a fresh look.

Fresh INSIGHTS

“

My confidence, through working with the other students and Louise, as well as my case study clients, has increased significantly.

Top CONTENT

Some great articles, and the fact that Louise continues to share more with the growing group is great for informal CPD. I particularly got a lot from Transitions by William Bridges.

“

Louise's experience came across in her delivery of the course, her relaxed approach put the group at ease, her delivery was professional, and her knowledge was apparent.

”

Great FACILITATOR

“

The case studies were a highlight. Real life situations are how I learn best and this is not unusual for people drawn to supporting professions.
